

Ski Rack Team Day with Rossignol Nordic Racing Staff

November 7th, 10am – 6pm

As the days get shorter and your training more specific, it's time to start thinking about your Nordic Race equipment needs for the 2015-16 season.

Working alongside Ski Rack staff, Rossignol Race staff will be on hand to work one-on-one with you regarding equipment selection and fitting, providing you with an incredible opportunity to dial in all of the gear you need to succeed this season. Additionally, Ski Rack will offer special team pricing on Rossignol products to all local teams on November 7th.

With involvement in product development from conception all the way to the finished product, the Rossignol Nordic Race staff knows every product detail and can help guide you to the equipment that will give you a competitive edge.

If you need specific skis to be ordered, our Nordic Race staff will collect detailed information from you and your coach and will then personally handpick your skis, ensuring you get exactly the right ski for your individual needs.

Our Race staff works Nordic events at every competitive level, from local races to the World Cup circuit, and understands the individual needs of athletes at each level.

On-snow throughout the season attending Nordic races and events, our Race staff will be accessible to you throughout the year. This consistent accessibility allows us to continue to help throughout the season and ensure that you always have the right equipment for your needs.

We look forward to working with you at Ski Rack and throughout the season as you work to reach all of your competitive goals.

See you out there!

The Rossignol Nordic Race Staff
